Hi, I want to thank you for on line classes.

The Math teacher was very good. He was a young man who knew this Zoom application very well and he explained very good and knew how to control and manage the classes. Thank you.

One more time I appreciate all your efforts to keep going these on line classes. And I know this is new for every body and we hope by time the problems will go away.

Sun 2020-04-05 11:15 AM

Hello.

Thanks for the good job!

Good!, the Maths classes is getting more challenging for the kids which is good for them to progress well and get into the best High school which is my focus.
I read on your website that you have a seminar to enlighten parents on how to get into the good high school, please when will that be coming up this year, I am interested. Though my son is still in G4 but I want to have all necessary information needed to ensure better preparation.

Thanks for the good service and prompt response always. I am happy I was able to sign in my son 2 weeks ago immediately I read about your lesson online.
Thanks and have a good weekend.

Regards
Abiola Simeon

Hi Mr. Zhao,

I really like the zoom sessions and teachings that was quickly prepared by your college (very professional).

On another topic, I would like to ask you about the summer camp. Will it be onsite in St Laurent or we can have it on Zoom? How many hours per day? How many students per class? What do the activities include? Also I have 2 twin kids grade 4th going to 5th. How much for the cost?

Thank you,
Carine Ghosn
